Dear Doctor Kedia:

I'm sure you've seen thousands of patients since the summer of '77: the year you treated me--and saved my life. (embryonal carcinoma).

I was a 22-year-old kid then. Next year, I will be fifty. Fifty. I'm not going to try to figure out how one thanks another for an extra lifetime: that is a fool's task.

I don't know if you'll be able to open the files, but I've included photos of the three children who lives I also owe to you.

I can see that you have a thriving practice. No surprise there. I am an associate creative director at an advertising agency: I write tv, print, and radio ads. My wife is an OB/GYN.

Life is good.
The life you gave me.
